While clicking get started or prediction in side bar,it redirected to the following page

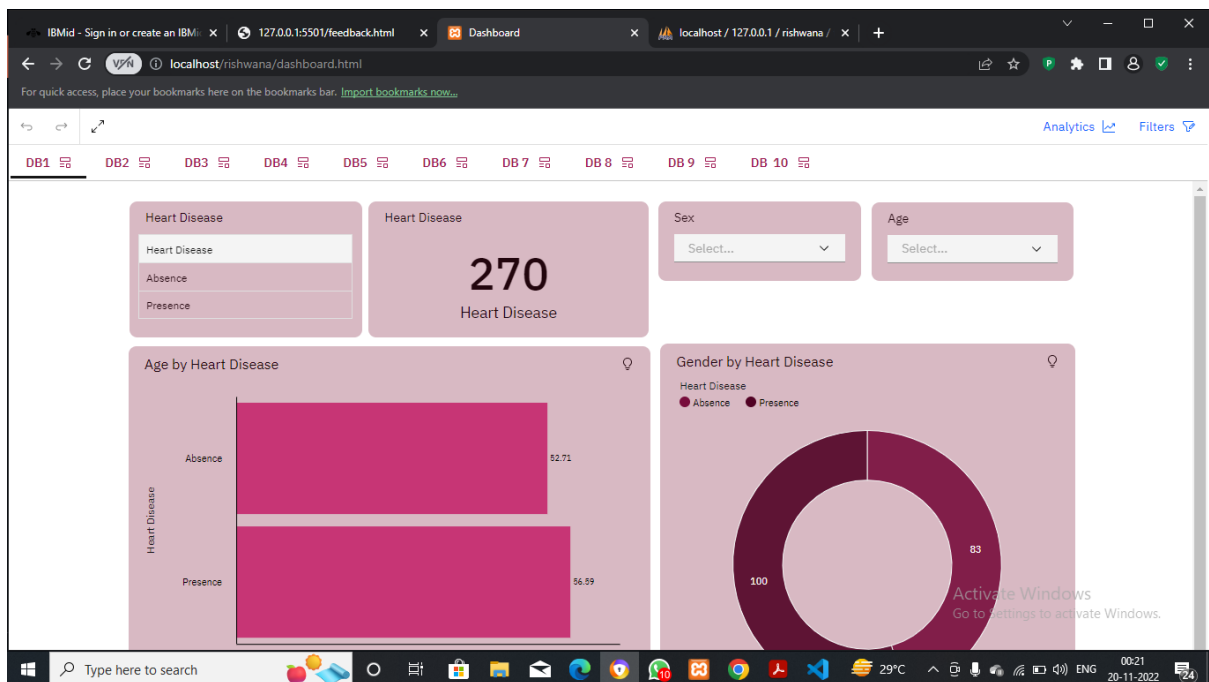

The screenshot shows a web browser window with the URL `predictionofheartdiseasebyrs.herokuapp.com`. The page has a dark purple background and is titled "Heart Disease Prediction". It contains a form with the following fields:

- Age**: A text input field with the placeholder "Your age..".
- Sex**: A dropdown menu with the placeholder "----select option----".
- Chest Pain Type**: A dropdown menu with the placeholder "----select option----".
- Resting Blood Pressure**: A text input field with the placeholder "A number in range [94-200] mmHg".
- Serum Cholesterol**: A text input field with the placeholder "A number in range [126-564] mg/dl".
- Fasting Blood Sugar**: A dropdown menu with the placeholder "----select option----".
- Resting ECG Results**: A dropdown menu with the placeholder "----select option----".
- Max Heart Rate**: A text input field with the placeholder "A number in range [71-200] bpm".

At the bottom of the form, there is a button labeled "Predict". An "Activate Windows" watermark is visible on the right side of the form.

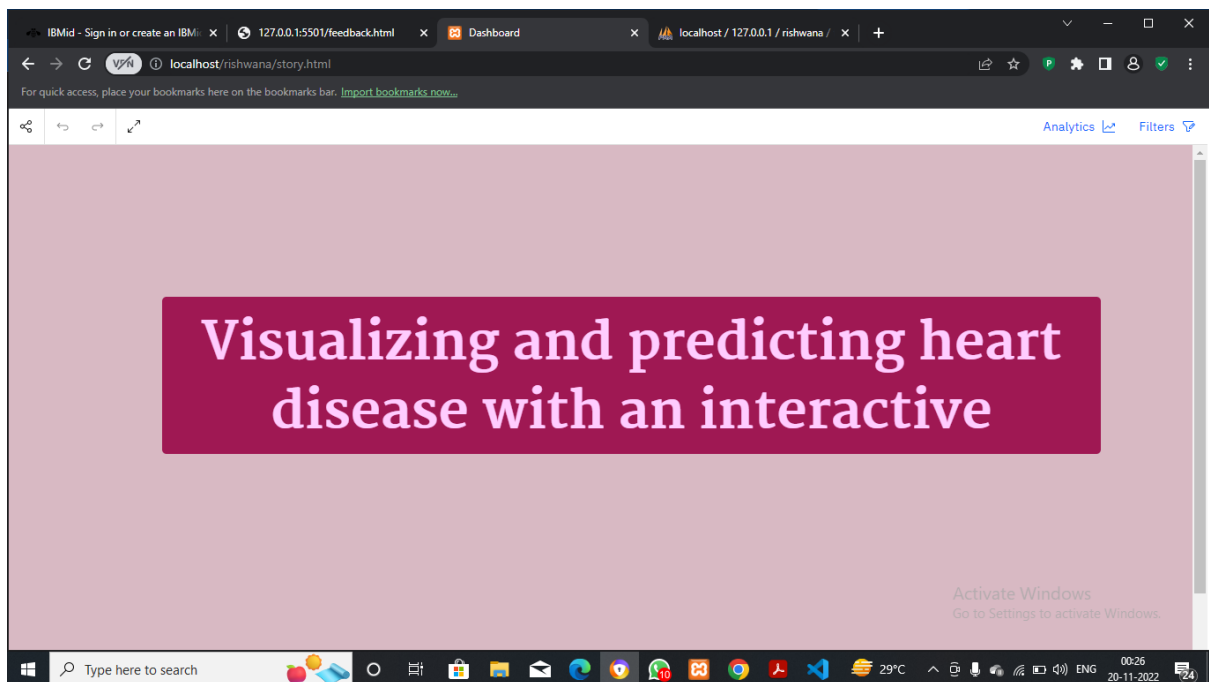

When clicking get dashboard ,it redirected to the following page

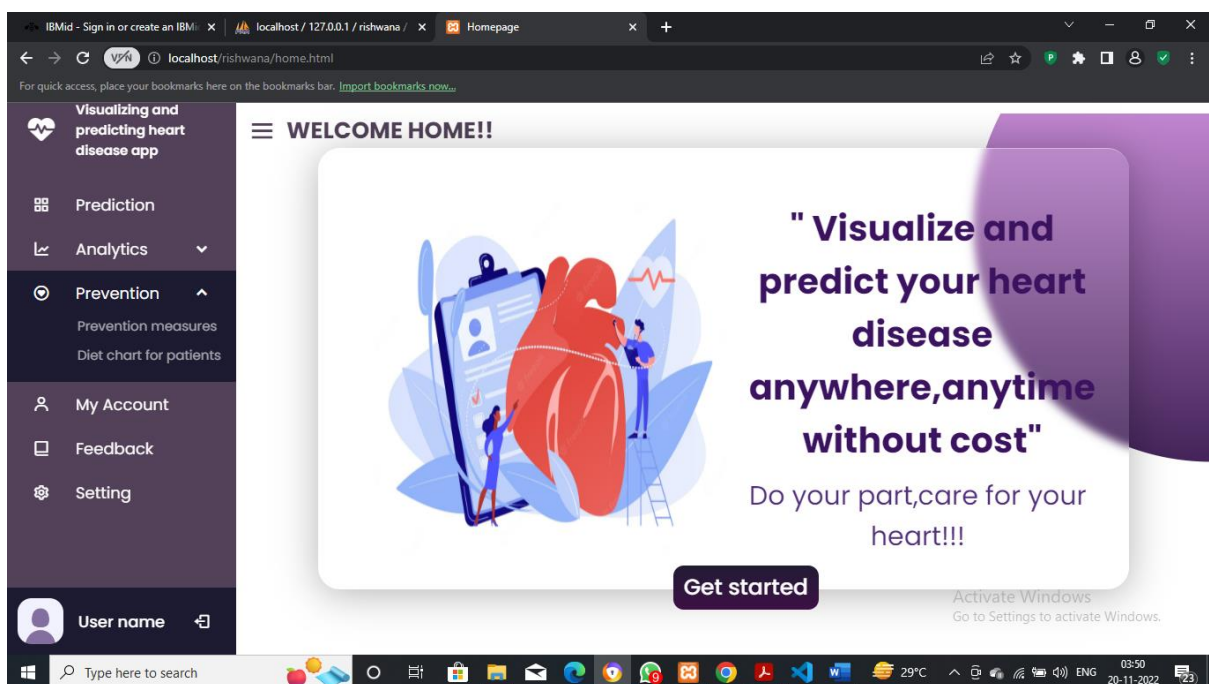

When clicking report, It redirected to the following page

Diet Chart For Heart Patients (Indian)

7 Day Sample Meal Plans | Vegetarian & Non-Vegetarian

In this article

- Do I Need A Diet Chart For My Heart?
- 7 Day Sample Meal Plan For Heart [Indian Vegetarian]
- 7 Day Sample Meal Plan For Heart [Indian Non-Vegetarian]

Last updated on January 11, 2022

Overview

Starting a diet can feel like climbing a mountain, especially if you haven't had much success in the past. However, there is no mountain that can't be climbed if you plan and prepare to do it. Dieting is something that is most likely to succeed when you approach it methodically.

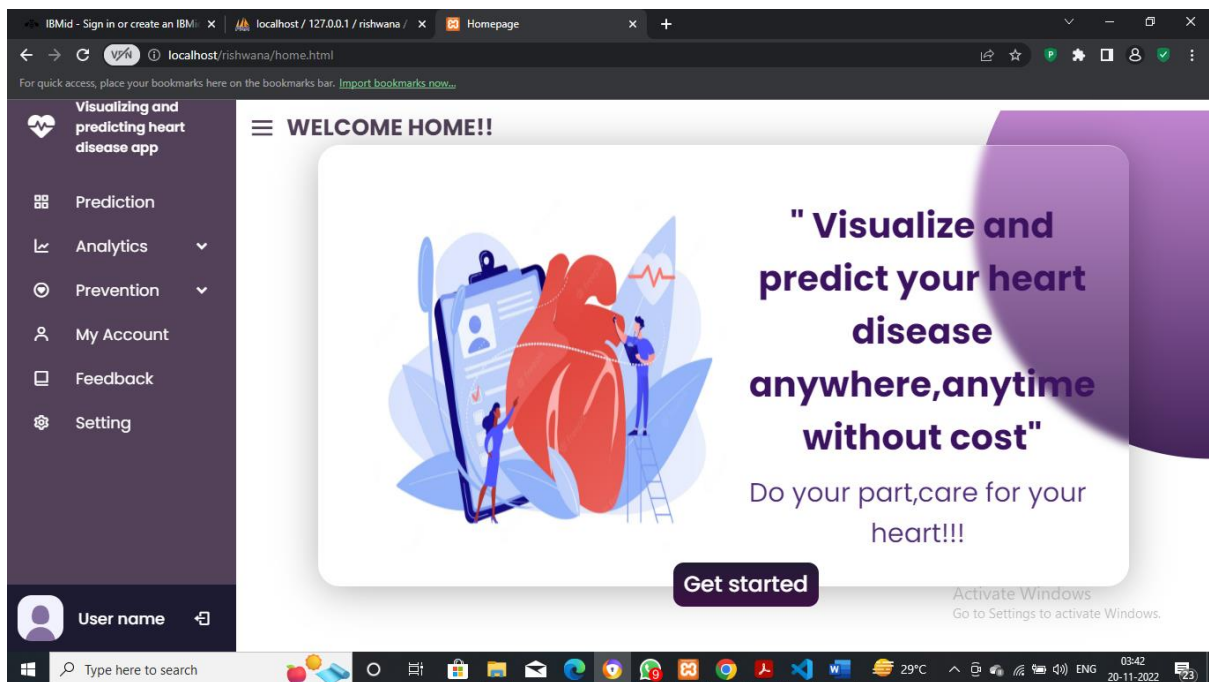

Creating a diet chart for heart patients is an excellent way to plan and follow a new diet. One of the major reasons new diets are difficult to follow is that you have to change the ingredients, cooking styles and portions. These changes can be difficult to deal with if you do not establish a routine.
